

### **AMENDMENTS TO THE CLAIMS**

The listing of claims will replace all prior versions and listings of claims in the application:

#### **Listing of the Claims:**

1. – 3. (Canceled)

4. (Currently amended) An adjustable one-piece molded clamp comprising:

(a) a first jaw having an inward facing surface, an outward facing surface, a first end, and a second end and being positioned in a first plane;

(b) a second jaw unitarily formed with said first jaw and being positioned substantially parallel to said first jaw in said first plane, said second jaw having an inward facing surface, an outward facing surface, a first end, and a second end;

(c) at least two notches in said outward facing surface of said second jaw, each of said notches being angularly offset from said outward facing surface; and

(d) a tension strap unitarily formed with said first jaw, said tension strap extending from said inward facing surface of said first jaw and having at least one through-aperture having an inner edge through which said second jaw is able to pass, said inner edge of said through-aperture is able to be releasably engaged with at least one of said notches upon passing said first end of said second jaw through said aperture, wherein said notches correspond to differing levels of clamp force.

5.–10. (Canceled)

11.–20. (Not entered)

21. (Previously Presented) The one-piece molded clamp of Claim 4 further comprising at least one protrusion on said inward facing surfaces of said first and said second jaws.
22. (Previously Presented) The one-piece molded clamp of Claim 21, wherein said at least one protrusion is unitarily formed with said inward facing surfaces of said first and second jaws.
23. (Previously Presented) The one-piece molded clamp of Claim 4 wherein said second ends of said first and second jaws further comprise means to mount said clamp on a surface.
24. (Previously Presented) The one-piece molded clamp of Claim 4 wherein said clamp is made of one of the following:
- a. a polymer;
  - b. a rubber; or
  - c. a synthetic rubber.
